【President Isao Kurauchi: Greeting of guest of honor】

We are facing serious problems such as global warming and pandemics. This is the cry of the earth. Therefore, we have started a movement here in Fukuoka Prefecture to “Protect the earth, cherish the lives of our future children, and create the better environment.”

However, we still need to let people know about One Health even here in Fukuoka Prefecture. From here in Fukuoka, I hope you will spread One Health throughout Japan and the world.”
