

FAVA President Isao Kurauchi visited the Korean Veterinary Medical Association

FAVA ONEHEALTH FUKUOKA OFFICE

On Friday, February 23, 2024, President Kurauchi visited the Korean Veterinary Medical Association. At the Korean Veterinary Medical Association, he received a grand welcome from Juhyung Hur, President of the Korean Veterinary Medical Association (Vice President of FAVA) and many staff members.

【President Isao Kurauchi: Greetings】

I assumed the office of President of FAVA at the 21st Congress of the Federation of Asian Veterinary Associations held in November of the year before last. At that time, Juhyung Hur, President of the Korean Veterinary Medical Association, assumed the office of Vice President of FAVA.

The convention was attended by approximately 2,500 participants from 23 Asian countries and regions. Many participants from the Korean Veterinary Medical Association attended it thanks to President Hur. Thank you very much.

In October of this year, the 23rd Congress of the Federation of Asian Veterinary Associations will be held in Daejeon, Korea. I hope that the convention will be a success through networking with Asian and international professionals.
