

## “Health & Nutrition Asia 2024” Has Been Held

“Health & Nutrition Asia 2024” took place from Tue-Thurs, March 12-14, 2024 at BITEC in Bangkok, Thailand, the largest livestock-related exhibition in Asia. Dr. Isao KURAUCHI, President of FAVA, delivered a keynote speech titled **“Asia One Health Fukuoka Declaration and Beyond”**.

Additionally, the FAVA ONE HEALTH FUKUOKA OFFICE exhibited a booth during the event.

## **[Greetings from FAVA President Isao KURAUCHI]**

We are delighted to have the opportunity to **host a One Health seminar together with TVMA**, in conjunction with the Health & Nutrition Asia 2024, one of Asia's largest exhibitions for the livestock and fishery industries. The seminar will focus on **FAVA's One Health Approach to Achieving Sustainable Food Security in the Asia Pacific**.

The global population continues to rise, resulting in an increasing demand for food, while challenges such as diminishing agricultural land, limitations on water resources, and labor shortages persist on the supply side. Therefore, it is imperative to explore strategies for sustainable food production that coexist harmoniously with the precious natural environment.

I will also be giving a presentation later. When considering food security, it is increasingly important to adopt the One Health approach across each stage of food production, food processing, and distribution.

I believe that active and healthy discussions on this matter are essential to addressing issues facing us, and I hope that you find this seminar helpful.
